WORK EXPERIENCE

Consultancy Outfit

01-04-2022 – Present

Front End Developer

Rawalpindi, Pakistan

- Built and maintained scalable web applications using **React.js, Next.js, and TypeScript**, improving UI consistency and reducing development time by **30%** through reusable component systems.
- Increased page load performance by **30%** using code-splitting, lazy loading, and detailed performance profiling.
- Implemented **SSR, SSG, and ISR** strategies in **Next.js** to enhance SEO and reduce TTFB by **40%**.

- Integrated RESTful APIs and GraphQL APIs using **RTK Query, Axios, Redux Thunk, and Zustand**, improving data-fetching speed by **25–35%**.
- Delivered accessible **UI** with **Tailwind, MUI, Ant Design & Styled Components**, achieving **WCAG AA** compliance.
- Built analytics dashboards using **Recharts, Chart.js & ApexCharts**, increasing data visibility by **35%**.
- Reduced UI defects by **25%** through **Jest & RTL** test coverage and TDD workflows.
- Collaborated closely with **UI/UX, backend**, and product teams, contributing to Agile sprints, code reviews, and **CI/CD** automation.

Cane Technologies Pvt Ltd

10 2020 – 03 2022

Front End React.js Developer

New City Phase 2, Wah Cantt, Pakistan

- Developed reusable **UI** components that reduced code duplication by **20%** and improved maintainability.
- Enhanced layout responsiveness across devices, reducing **UI** issues by **30%**.
- Improved team delivery speed by **15%** by collaborating with designers and backend teams on feature rollouts.
- Delivered production-ready features under evolving business requirements with high consistency.

PROJECTS

PeoplescreedAI [↗](#) | ReactJs, NextJs, Typescript, RTK Query, MUI

- Built Recruiting, Onboarding, Performance & SSO Admin modules in a monorepo setup.
- Developed reusable UI libraries boosting development speed by **30%**.
- Integrated RTK Query for optimized data fetching, reducing unnecessary calls by **25%**.

Agentic Creed [↗](#) | ReactJs, NextJs, Typescript, RTK Query, MUI

- Delivered dynamic dashboards with reusable components aligned to a unified design system.
- Implemented optimized API fetching with RTK Query, reducing unnecessary re-renders by **20%**.
- Built real-time UI updates enhancing user workflow efficiency.

Identity Gram [↗](#) | ReactJs, NextJs, Typescript, RTK Query, MUI

- Developed end-to-end UI flows including onboarding, authentication screens, and data-driven forms.
- Implemented robust form handling using React Hook Form, reducing validation issues and improving UX.
- Integrated APIs and dynamic layouts to support interactive user profiles and activity modules.

Compliance Sheet [↗](#) | ReactJs, NextJs, Typescript, RTK Query, MUI

- Built E-Inspect, Well-Being, L&D & Assurance modules in a monorepo architecture.
- Created reusable component libraries improving development speed by **30%**.
- Optimized API calls using RTK Query, reducing redundant requests by **25%**.
